Healthcare has been deeply rooted in Starbuck since the early 1900s. As healthcare evolves, Stevens Community Medical Center Starbuck Clinic's mission to provide the best care is still the same. Caring is their reason for being.

SCMC Starbuck Clinic is excited to announce that Dr. Brent Barnstuble will be joining the Starbuck Clinic a couple days a week as a third provider. Dr. Barnstuble will join Greg Rapp, PA-C and Kayla Bowers, CFNP.

Dr. Barnstuble has worked for SCMC for five years. He will continue to have a practice in the Morris location and share his time with SCMC's Starbuck Clinic. He will provide family practice with OB. Appointments can be made for kids, women's health, joint injections, well-checks, physicals, vasectomies, OB, pre-ops, follow-ups, and colonoscopies (performed at Morris location.) Dr. Barnstuble attended the University of North Dakota School of Medicine and completed his residency at University of Nebraska. Prior to joining SCMC he practiced medicine in the United States Air Force.

SCMC is committed to providing local healthcare in the Starbuck community.
